

UNIT 2: MARITIME

I. INTRODUCTION

Maritime is an industry code which specializes in training and providing expertise and knowledge for officers of the Vietnam Navy and the Vietnam Coast Guard. The following lecture will introduce readers to the practical operation of the Vietnam Coast Guard navigation section and the training codes of the Vietnam Coast Guard.

Navigating ship at sea

II. TEXT

Vessels of Vietnamese nationality, including Vietnam Coast Guard ships and **public service ships**, are governed by the provisions of the Vietnam Maritime Code (2015), **the maritime training sector** specified in the Education Law and other detailed regulatory documents, and implementation guidelines of the Government, the Prime Minister and relevant ministries and branches.

The navigation section is a profession that specializes in training and providing expertise and knowledge for officers of the Vietnamese Navy, Vietnam Coast Guard, and **crew members** on the provisions of Vietnamese law and international law on the sea, maritime rules, maritime signal system, responsibilities, and obligations of the **commanding officer** and **crew members, marine safety equipment**, hydrometeorology, ship engineering; and carrying people and carrying goods at sea. **The navigation section** is one of the most important training industries not only for Vietnam but also for any maritime country in the world.

The Vietnam Coast Guard is invested by the state in ships, aircraft, weapons, and technical equipment and prioritizes the application of modern science and technology. Stemming from the multi-functional, multi-tasking nature and the very wide range of activities of the Vietnam Coast Guard following the law, it is very important to ensure the work of the Vietnam Coast Guard directly affects the synergy of the force and the ability to perform tasks at sea.

Although the law has not yet regulated *Coast Guard Navigation training* (*Coast Guard* section). However, in practice, the training section of the Coast Guard, *Coast Guard Navigation*, includes:

- Own and exploit, safely and effectively operate technical equipment in the *navigation* industry such as: Magnetic compass, Gyro compass, Digital compass; Hydraulic steering system; Ship steering system and Autopilot; Automatic working machines; Road calculator; Depth gauge; Navigation radar; Electronic charts (EC); Global Positioning System GPS; Integrated marine systems (IMS)...; coordinate and cooperate with other branches on the ship to perform well the tasks.

- Optimal itinerary planning. Locate the ship and track the ship's path using different methods. Analyze, evaluate, and handle to ensure *navigation* safety for ships at all times and in different seagoing conditions.

- Calculation of maneuvering operations and *navigation* security for ships when using weapons in combat, performing information, technical, surveying, and other tasks.

- Organization of branch command in combat preparation, sea preparation, seafaring, and combat; implementing training regimes.

- Organize and command the branch to implement the regimes of preservation, maintenance, and *repair* of weapons and technical equipment according to decentralization.

The officers and soldiers of the Vietnam Coast Guard need to regularly receive additional training, fostering and impart seafaring experience, especially young officers and sailors who are new to the ship's regulations in **narrow channels** with

limited visibility; regulations on operation on the seas, the law of the sea and Law on maritime *navigation* safety... to improve professional qualifications, contribute to firmly protecting the sovereignty, sovereign rights, and jurisdiction of the country, protect the rights and interests of organizations and individuals lawfully operating at sea.

III. VOCABULARY

1	autopilot	/ˈɔːtəʊpaɪlət/	n	máy lái tự động
2	channel	/ˈtʃænl/	n	luồng thủy
3	decentralization	/ˌdiːˌsentərəlaɪˈzeɪʃn/	n	phân cấp
4	depth gauge	/depθ ɡeɪdʒ/	n	máy đo sâu
5	electronic chart	/ɪˌlekˈtrɒnɪk tʃɑːt/	n	Hải đồ điện tử
6	exploit	/ɪkˈsplɔɪt/	v	khai thác
7	Global Positioning	/ˈɡləʊbl pəˈzɪʃənɪŋ/	n	Hệ thống định vị toàn cầu
8	Gyro compass	/ˈdʒaɪrəʊ ˈkʌmpəs/	n	la bàn con quay
9	integrated marine	/ˈɪntɪɡreɪtɪd məˈriːn/	n	Hệ thống tích hợp hàng hải
10	itinerary magnetic	/aɪˈtɪnərəri mæɡˈnetɪk/	n	hành trình
11	compass	/ˈkʌmpəs/	n	la bàn
12	navigation	/ˌnævɪˈɡeɪʃn/	n	(ngành) hàng hải
13	optimal	/ˈɒptɪməl/	a	tối ưu

14	regime	/rei'ʒi:m/	n	chế độ
15	road calculator	/rəʊd 'kælkjuleɪtə(r)/	n	máy tính đường
16	seafaring	/'si:feərɪŋ/	n	đi biển
17	visibility	/ˌvɪzə'bɪləti/	n	tầm nhìn

IV. GRAMMAR

* Noun

A noun is a word that names something, such as a person, place, thing, or idea. In a sentence, nouns can play the role of subject, direct object, indirect object, subject complement, object complement, appositive, or adjective.

- Function and position of nouns

+ The subject of the verb (beginning of a sentence, beginning of a clause)

Eg: Maths is the subject I like best.

+ After adjectives (good, beautiful,..), possessive adjectives (my, your, our, their, his,..).

Eg: Their AAC helicopter is a useful vehicle to attack enemy armour.

His father works in Narcotics Prevention Base No. 2.

+ As the object, after the verb

Eg: Tom gave Mary flowers.

I will become an officer in the future.

Board of directors elected her father president.

+ After the articles (a, an, the), demonstrative pronouns (this, that, these, those), quantities (each, no, some, a few, little,..), prepositions(in, on, of, with, under, about, at.....)

Eg: This book is an interesting book.

This boy is so handsome.

I have a little money to go to the movie.

Thanh is good at literature.

- Identification signs of nouns:

-ion (distribution), -ment (development), -er (teacher), -or (actor), -ant (accountant),
-age (marriage), -ship (friendship), -ism (enthusiasm), -ity (ability), -ness
(happiness), -dom (freedom), -ist (terrorist), -ian (physician), -hood (childhood), -
ance (importance), -ence (dependence), -ety (society), -ty (honesty)

V. PRACTICE

Exercise 1. Translate into Vietnamese:

1. The navigation section is one of the most important training industries not only for Vietnam but also for any maritime country in the world.

=>.....
.....
.....

2. Stemming from the multi-functional, multi-tasking nature and the very wide range of activities of the Vietnam Coast Guard following the law, it is very important to ensure the work of the Vietnam Coast Guard directly affects the synergy of the force and the ability to perform tasks at sea.

=>.....
.....
.....

3. Calculation of maneuvering operations and *navigation* security for ships when using weapons in combat, performing information, technical, surveying, and other tasks.

=>.....
.....

4. Organize and command the branch to implement the regimes of preservation, maintenance, and *repair* of weapons and technical equipment according to decentralization.

=>.....
.....

5. The officers and soldiers of the Vietnam Coast Guard need to regularly receive additional training, fostering and impart seafaring experience, especially young

officers and sailors who are new to the ship's regulations in **narrow channels** with limited visibility; regulations on operation on the seas, the law of the sea and Law on maritime *navigation* safety...

=>.....
.....
.....

Exercise 2. Work in pairs. Decide which of these topics is most likely to cause arguments in your family and why. Are there any others you can think of?

- doing chores
- doing schoolwork
- staying out late
- sharing a family computer
- what to watch on TV
- when to watch TV
- too much time spent on social media and games
- what to eat

Exercise 3. Compare your ideas with the class. Find the topic which causes the most family arguments.
